

## **SUSTAINABILITY POLICY**

Akti Palace hotel is committed to provide high quality hospitality services and try to exceed customer expectations by creating a friendly and hospitable atmosphere for their customers.

We continually seek to improve our services whilst minimize our negative environmental impact. Thus, achieving a safe and suitable environment, contributing to the local community and complying with Health & Safety legislation are key issues in our policy.

Our principles include:

- Conserving our natural resources through the implementation of routine actions and by sustainable management
- Conserving energy and water
- Reducing, reusing and recycling waste
- Complying with relevant environmental legislation and regulations
- Supporting the local community by employing local personnel whenever possible and purchasing products and services from local businesses
- Raising awareness to our staff on conservation energy issues
- Complying with health and safety legislative requirements
- Promoting, whenever possible, renewable and sustainable energy sources
- Setting energy and quality targets and regularly monitoring and evaluating our energy and quality performance
- Renewing objectives & targets with the aim to continually improve on minimizing our environmental impact.

Our Sustainability Progress:

- ✓ Use biodegradable paper straws and cups
- ✓ Use biodegradable toilet and kitchen paper
- ✓ Use of energy efficient light bulbs
- ✓ Recycling batteries, glass, tin, paper, aluminium, ink cartridges and used cooking oil
- ✓ Recycling electronic and electric equipment
- ✓ Return of plastic osmosis containers
- ✓ Support social and community work such as “The Smile of Child” and “Goodbye to Cancer”
- ✓ Replacement of older A/C units and mini fridges with new energy-efficiency ones
