Environmental Policy

AKTI CLUB HOTELS

1. Introduction

Akti Hotels are committed to promoting sustainability and reducing our environmental impact. We recognize the importance of preserving the environment for future generations and strive to implement practices that contribute to a healthier planet.

2. Objectives

- To reduce energy consumption and greenhouse gas emissions.
- To minimize water usage and improve water efficiency.
- To reduce waste and promote recycling
- To source sustainable and local products.
- To educate staff and guests about environmental practices.

3. Energy Conservation

- Implement energy-efficient systems (lighting, heating, and cooling).
- Use renewable energy sources where possible (solar panels).
- Monitor and track energy usage to identify areas for improvement.

4. Water Conservation

- Install low-flow fixtures and appliances.
- Implement a linen and towel reuse program for guests.
- Regularly check for and repair leaks.

5. Waste Management

- Reduce, reuse and recycle materials whenever possible.
- Compost organic waste from the kitchen and dining areas.
- Work with suppliers to minimize packaging and use recyclable materials.

6. Sustainable Sourcing

- Prioritize purchasing from local and sustainable suppliers.
- Use eco-friendly products for cleaning and maintenance.
- Offer organic and locally sourced food in our restaurant.

akti hotels

7. Transportation Initiatives

- Encourage the use of public transportation, biking, or walking for guests.
- Offer electric vehicle charging stations.
- Promote shuttle services.

8. Staff Training and Engagement

- Provide regular training for staff on sustainability practices.
- Encourage staff involvement in environmental initiatives.
- Create a sustainability team to lead efforts and monitor progress.

9. Guest Engagement

- Inform guests of our environmental initiatives and encourage participation.
- Offer incentives for guests who participate in sustainability programs.

10. Continuous Improvement

- Review and update our environmental policy regularly.
- Set measurable goals and track progress.
- Solicit feedback from staff, guests and the community to improve our practices.

11. Compliance

- Adhere to all relevant environmental laws and regulations.
- Participate in local and national sustainability programs and certifications.

12. Communication

- Share our environmental efforts with guests, stakeholders, and the community through various channels (website, social media).

Conclusion

At Akti BEACH, we are dedicated to making a positive impact on the environment. By implementing this policy, we aim to foster a culture of sustainability that resonates with our guests, staff and community.
